

# GREEN GENIE

## Pressure Filters

**The ultimate in combined U.V. and filter technology.**

- Advanced ultra violet sterilizer - controls green water
- Biological filtration - for a healthy pond
- Pressure technology - filtering under pressure improves filter performance compared to similar sized surface filter
- Easy to install - designed for home installation
- In-ground capability - can be easily sited and even partially buried
- User friendly service indicator - lets you know back flush when it is time

Green Genie

Green Genie Xtreme

### Backwash Cleaning System "Clean-With-A-Twist".

All Green Genie pressure filters incorporate our specially developed easy to use backwash cleaning system, which means the filter does not need to be opened for routine maintenance.

**Step 1**

Move the mode selection valves from 'Work' to 'Clean'.

**Step 2**

The water flow is now reversed through the filter media.

- flush or cleaning is required
- Easy to use Backwash cleaning system - no need to open the filter for routine maintenance
  - Clear water guarantee - when recommended system is installed
  - 2 year guarantee - excluding serviceable parts
